
TABLE OF CONTENTS

	<u>Page No.</u>
Executive Summary	i – 1
Section 1 – Introduction	1 – 1
Introduction	1 – 1
Background	1 – 1
TSP Report Objectives	1 – 2
TSP Report Approach	1 – 2
TSP Report Structure	1 – 4
Section 2 – Study Area Transportation System	2 – 1
Introduction	2 – 1
Study Area	2 – 1
Overview	2 – 1
Streets and Highways	2 – 3
Freight	2 – 17
Public Transportation	2 – 22
Non-Motorized Transportation	2 – 34
Section 2 Highlights	2 – 37
Section 3 – Socio-Economic Characteristics	3 – 1
Introduction	3 – 1
Approach	3 – 1
Population	3 – 2
Households	3 – 9
Employment	3 – 12
Income	3 – 15
Land Use	3 – 17
Section 3 Highlights	3 – 22
Section 4 – Traffic Characteristics	4 – 1
Introduction	4 – 1
Approach	4 – 1
Historic ADT Trends by Functional Class	4 – 7
Current and Projected Change in Study Area ADTs	4 – 9
Current and Project Change in Study Area Truck Traffic	4 – 13
Intermodal Facilities	4 – 17
Section 4 Highlights	4 – 17
Section 5 – Transportation System Performance Measures	5 – 1
Introduction	5 – 1
Level of Service	5 – 1
Volume to Capacity Ratio	5 – 8
Screen Line Analysis	5 – 11
Travel Density	5 – 14

	<u>Page No.</u>
Trip Ends	5 – 16
Trip Distribution	5 – 20
Accessibility to Jobs	5 – 22
Travel Time Contours	5 – 24
Transit Threshold	5 – 29
High Accident Locations	5 – 32
Section 5 Highlights	5 – 36
 Section 6 – Public Involvement	 6 – 1
Introduction	6 – 1
Stakeholder Interviews	6 – 1
Stakeholder Interview Approach	6 – 2
Transportation-Related Comments	6 – 3
Development/Land Resource Management Comments	6 – 5
Other Comments	6 – 7
Focus Groups	6 – 8
Focus Groups Approach	6 – 8
Current Transportation and Travel Pattern Findings	6 – 10
Attitudes Toward Highway Travel Findings	6 – 11
Public Transportation Findings	6 – 17
Development Findings	6 – 18
Future Travel Needs Findings	6 – 20
Section 6 Highlights	6 – 21
 Section 7 – Conclusions	 7 – 1

LIST OF FIGURES

	<u>Page No.</u>
1-1 Part A Approach	1 – 2
2-1 General Study Area	2 – 2
2-2 Existing Road Network	2 – 4
2-3 Roads by Functional Class Designation	2 – 8
2-4 Number of Through Lanes	2 – 10
2-5 Strategic Regional Arterials	2 – 13
2-6 Planned and Programmed Investments	2 – 15
2-7 Freight Facilities	2 – 21
2-8 Existing and Proposed Commuter Rail and Bus Service	2 – 23
2-9 Existing Bicycle Network	2 – 35
3-1 Prairie Parkway Study Area – 2000 Urbanization	3 – 3
3-2 Change in Population 2000 to 2030	3 – 8
3-3 Change in Households 2000 to 2030	3 – 11
3-4 Change in Employment 2000 to 2030	3 – 14
4-1 Traffic Data Collection Locations	4 – 2
4-2 Origin and Destination Unique Zip Code Pairs.....	4 – 5
4-3 Travel Forecasting Process	4 – 6
4-4 Transportation Analysis Zone System	4 – 6
4-5 Average Daily Traffic	4 – 10
4-6 Change in Average Daily Traffic 2000 to 2030	4 – 11
4-7 2001 Existing Truck Average Daily Traffic	4 – 15
4-8 Change in Truck Average Daily Traffic 2000 to 2030	4 – 16
5-1 Existing Peak Period Level of Service	5 – 4
5-2 2030 Forecast Peak Period Level of Service	5 – 5
5-3 2000 Volume to Capacity	5 – 9
5-4 2030 Volume to Capacity	5 – 10
5-5 Change in North-South Traffic Volume 2000 to 2030	5 – 12
5-6 Change in East-West Traffic Volume 2000 to 2030	5 – 13
5-7 Change in Travel Density	5 – 15
5-8 Change in Work Trip Attractions 2000 to 2030	5 – 18
5-9 Change in Total Vehicle Trip Productions 2000 to 2030	5 – 19
5-10 Change in Work Trip Destinations from Kendall County 2000 to 2030	5 – 21
5-11 Travel Time Contours from Sugar Grove	5 – 25
5-12 Travel Time Contours from Joliet West	5 – 26
5-13 Travel Time Contours from Yorkville	5 – 27
5-14 Travel Time Contours from Morris	5 – 28
5-15 2000 Areas by Transit Service Threshold	5 – 30
5-16 2030 Areas by Transit Service Threshold	5 – 31
5-17 High Accident Locations 1999 to 2001	5 – 33

LIST OF TABLES

	<u>Page No.</u>
2-1 Means of Transportation to Work in 2000	2 – 1
2-2 Functional Classification System	2 – 5
2-3 Study Area Route-Miles by Functional Classification	2 – 7
2-4 Strategic Regional Arterials within Study Area	2 – 12
2-5 Future Highway Projects	2 – 16
2-6 Freight Facility Identification	2 – 19
2-7 Metra Rail Average Weekday Ridership	2 – 24
2-8 Metra Rail Weekday Trains	2 – 25
2-9 Metra Rail Historic Weekday Ridership Trends	2 – 26
2-10 Metra Station Commuter Parking	2 – 27
2-11 Pace Study Area Bus Routes	2 – 31
2-12 Non-Motorized Transportation to Work in 2000	2 – 34
3-1 Historic and Current Population	3 – 4
3-2 U.S. Bureau of Census 100 Fastest Growing U.S. Counties 2001-2002	3 – 5
3-3 U.S. Bureau of Census Components of Population Change – Illinois Counties	3 – 6
3-4 2030 Population Forecasts	3 – 7
3-5 Historic and Current Households	3 – 9
3-6 2030 Household Forecasts	3 – 10
3-7 Historic and Current Employment	3 – 12
3-8 2030 Employment Forecasts	3 – 13
3-9 Jobs – Household Ratio	3 – 15
3-10 Historic and Current Average Household income	3 – 16
3-11 2030 Average Household Income Forecast	3 – 16
4-1 Historic ADT Change by Functional Class	4 – 8
4-2 Projected ADT Change by Functional Class	4 – 12
5-1 Study Area Trips, VMT and VHT	5 – 16
5-2 Change in Work Related Vehicle Trips 2000 to 2030	5 – 20
5-3 Change in Total Vehicle Trips 2000 to 2030	5 – 20
5-4 Accessibility to Current Regional Jobs	5 – 22
5-5 Accessibility to New Regional Jobs	5 – 23
5-6 VMT & Crash Projections	5 – 35
